Benefits summary

Room Rent

Room Rent means the amount charged by a Hospital for the occupancy of a bed per day (twenty-four hours) basis and shall include associated medical expenses. Sub-limit on room rent would mean that the insurer defines the maximum amount it will pay towards the room rent. Mostly, this limit is defined as a percentage of sum insured.

As an example, a 1% (of Sum Insured) per day cap for a normal room in a policy with a sum insured of Rs 3 lakh means that the insurer will only pay Rs3,000 per day towards room rent. In other words, you would be eligible to stay in a room with a tariff of up to Rs3,000 per day.

If you choose a room with higher tariff, the insurer will not pay, and you will pay the difference. But that's not all. You don't only pay the difference in the room rent alone, but the associated difference in cost of doctors' fees, nursing fees and surgery costs. This is so because the cost of medical procedures is linked to the room that you choose. So, for the same line of treatment a person with a twin-sharing room will pay less compared to a person with a single room.

Your policy eligibility is **Hospital tariff of single standard a/c room or 1% of Sum Insured - INR 10,000, whichever higher is applicable, and for ICU/CCU/NICU there is no per day limit.**
